

5-Sep-17

Dr. David Dudgeon  
Editor in Chief, *Freshwater Biology*

Dear Dr. Dudgeon,

Attached, please find a revision of our manuscript titled "Urban infrastructure influences dissolved organic matter quality and bacterial metabolism in an urban stream network" (FWB-P-Feb-17-0064) by CP Arango plus 8 other co-authors. This revision incorporates the minor revisions recommended by one of the original reviewers and Associate Editor Dr. Stefan Bertilsson. Please note that I also found that the running head had not been changed to reflect the new title of the revised manuscript, so I edited that. I also found an error on the x-axis label of Figure 5 that I fixed. We appreciate the positive comments from the reviewer and the associate editor, and we thank you and the reviewers for the constructive criticism that has improved this contribution.

Sincerely,

Dr. Clay Arango ([arangoc@cwu.edu](mailto:arangoc@cwu.edu), phone 509-963-3163, fax 509-963-2730)

Dr. Jake Beaulieu

Dr. Ken Fritz

Dr. Brian Hill

Dr. Colleen Elonen

Dr. Michael Pennino

Dr. Paul Mayer

Dr. Sujay Kaushal

David Balz, M.S.
