Quality Assurance Activity Review

QA Activity Project: Nitrogen Processing in Day-Lighted and Buried Streams

QA Activity Number: G-WSWRD-0016755-JA-3-0

QA Activity: Journal Article

Date Received: 2017-01-20

Project Lead: Beaulieu, Jake

Project Branch: UWMB

QA Activity POC: Beaulieu, Jake

POC Branch: UWMB

Reviewer: Olszewski, John

LCO Tracking No.: ORD-020010

Date Reviewed: 2017-01-27

Date Approved: 2017-01-27

QA Activity Title: Carbon Limitation of Heterotrophic Respiration is Linked to Dissolved Organic Matter Quality in Urban Streams.

QUALITY ASSURANCE MANAGER RECOMMENDATION

Approved - All aspects reviewed are acceptable.

X Approved with minor revisions -

This work needs minor corrections, but does not require additional QA review. The PI/PO should respond to each QA review comment and return the response write-up or a corrected version of text to the QA office.

Not Approved revisions required -

This work contains major errors or there are QA findings that require major re-writes. An additional QA review of the corrected text is required, along with the PI/PO's written response to each QA comment.

QA requirements are not applicable
